Introducing the... WONDERS OF THE WORLD COLLECTION

The collection features 25 silver ingots minted to the highest quality in one ounce of .999 fine silver, layered in 24-karat gold and expertly colorized.

CREATED TO THE HIGHEST PROOF STANDARDS

Each gold-layered silver ingot in the Wonders of the World Collection is meticulously crafted by the world's most skilled artists and minters.

The painstaking process starts with a steel minting die. When the craftsmen are satisfied that the master die is flawless, only then is it placed into a massive proofing press. Polished .999 fine silver blanks are carefully placed by hand into the press, where they are struck one at a time to create proof-like silver ingots.

Each silver ingot is generously layered in 24-karat gold, then a precise colorized image of the world wonder is expertly applied. Finally, each ingot is protectively lacquered to prevent tarnish and preserve its gleaming finish.

The result is a collection of stunning ingots that celebrate and honor the world's most treasured wonders.
